## PROFILE

---

A committed frontend developer with expertise in using contemporary frameworks and best practices to create scalable web applications. Skilled at writing readable, maintainable code with a strong emphasis on security, readability and performance. Knowledgeable in JavaScript's ES6 features and React.js, with a sharp eye for code architecture and performance.

## PROFESSIONAL EXPERIENCE

---

### React Developer

*Swifdrop*

06/2024 – present  
Remote

- Worked on a food delivery app, specifically focusing on the development and management of the admin dashboard.
- Developing and maintaining a responsive, user-friendly admin dashboard and ensuring efficient user management and order tracking.
- Regularly updating tasks and progress on Nifty, ensuring alignment with monthly deliverables.
- Managed frontend state using **React Context** and **React Query** to efficiently handle asynchronous operations.

### Frontend Developer Intern

*University Website for Students and Lecturers*

02/2024 – present  
Remote

- Working with a backend developer to integrate multiple APIs while creating and developing a university website for instructors and students.
- Utilizing Tailwind CSS to style components and ReactJS to build dynamic user interfaces that are responsive on all platforms.
- Putting in place components that allow for a seamless user experience, like student portals, assignment submissions, and user authentication.
- Designed and implemented a course management web app using **React** and **TypeScript**.

## SKILLS

---

### Technical skills

Frontend Frameworks: React.js, Next.js

Languages: JavaScript, TypeScript, HTML, CSS

UI Libraries & Frameworks: TailwindCSS, Bootstrap, MaterialUI

Version Control: Git, GitHub

Performance & Optimization: Lighthouse, React Dev Tools

### Soft skills

- Problem-Solving
- Communication
- Adaptability
- Time management
- Team Collaboration
- Creativity

## PROJECTS

---

### **fashionTech**

*React, Tailwind*

- Leveraged modern frontend frameworks and libraries such as ReactJS to enhance interactivity and performance.
- Integrated secure payment gateways and user authentication systems to ensure a safe and reliable shopping experience.
- Designed intuitive user interfaces for product browsing, selection, and checkout processes, prioritizing ease of navigation and conversion.

### **MOVIELAND**

*ReactJS, TailwindCSS*

A dynamic movie website leveraging a Movie Database (DB) and API integration.

- Implemented a robust search functionality using ReactJS, enabling users to easily explore the movie database by titles, genres, or keywords.
- Introduced a bookmarking system, allowing users to save favorite movies for quick access, enhancing personalization and user convenience.

### **REST Countries API**

*ReactJS, TailwindCSS*

This REST Countries API provides users with an immersive exploration of global data.

- It allows users to access a vast database of countries, presenting all relevant information on the homepage for easy access.
- I implemented a user-friendly search feature, enabling users to quickly find specific countries by name or region.
- The application adapts to different screen sizes, ensuring an optimal layout regardless of the user's device.

## EDUCATION

---

### **Pure and Applied Chemistry**

*University of Lagos*

09/2016 – 12/2021
